

Abstract

- Title:** Integration of children with special needs into the swimming lessons in the district of Louny
- Objectives:** The thesis analyses the current state of integration of children with special needs into the swimming lessons in swimming schools in the district of Louny.
- Methods:** In the theoretical part of thesis was used research of literature in the field of people with special needs, integration and swimming lessons. The research was conducted by interviewing, the form of survey. Analysis method was used for sorting the information which were obtained, synthesis method was used in their summary.
- Results:** Integration of children with special needs into the swimming lessons in the district of Louny is possible. Children with mental and physical disabilities are included into swimming lessons. These children have the opportunity to use hours of swimming lessons created specifically for them. This, however, offers only one of the three swimming schools.
- Keywords:** People with special needs, integration, swimming lesson
